

Courtney Davis with Art Giser (Founder Energetic NLP) who used Courtney's art on his own energy workshop in London in 2012.

Born in universal consciousness and expressed through oneness Courtney Davis brings a gifted intuitive synergy to both his art and his healing practice.

There are times when both his art and healing coalesce into an indefinable flowing of love that transcends normal human awareness and expectations.

His long journey into oneness and his progression as a healer and teacher has enabled him to develop a healing modality that provides the grounding for his healing energy, which is born in universal consciousness and manifested through his physical form as a unique expression of oneness and it works on the physical, emotional and mental levels within an individual - assisting in the cleansing of deep seated issues so that those who experience both his healing and his art can reflect on their realisations and progress with their lives.

# AN EVENING WITH *Courtney Davis*

"Courtney has worked with the universal life force energy for nearly 40 years, it has been the guiding hand that has taken him through 50 publications in that time.

He uses that same energy to enhance the quality of life, treating the whole person including body, emotions, mind and spirit and creates many beneficial effects including relaxation and feelings of peace security and wellbeing."

*John Fielder Master Coach & NLP Trainer*

**EVENING BY DONATION**

**PLEASE BOOK AS THERE ARE LIMITED PLACES**

Courtney Davis had his first encounter with the Merlin Energy after a serious spine operation in 1974, this experience was to be the start of a 30 year life changing journey of collaboration with the Mage and the inspiration that helped the creation of 50 published books over this period.

At this evening event Courtney will talk about working with the energy and how it effected his art and his life. Courtney will set up a space where you will be invited to connect with this energy yourselves as a group and it is hoped that like many people on these evenings before, you may experience its power, magic and wonderful healing potential for yourselves.

In 2011 Merlin stepped away and a series of transformational changes began to happen that would totally change the way that Courtney worked and viewed the world about him. This evening is a foretaste of further events that may help to take the serious seeker closer to their re-connection with the Divine whether its The Beloved, Universe, Dharma, Spirit or God.

**A short period of trance will occur at these events.**

Its not an evening of religious beliefs, Courtney will offer you the opportunity to become more open to awareness of your potential, your connection with the Universe and everything around you and hopefully offer some spark to experience life in a very different way.

These events have always been special part of Courtney's life and they seem always to be memorable and inspiring for those who come. For each person its obviously very different, for some they may feel they experience nothing on the night as sometimes the energies are more subtle and more healing . From past experience it may well come into play the next day or even a week away, be assured it will happen and Courtney will be happy to share what arises at a regular monthly open discussion evening.

**The event will be restricted to 12 people only so please book early if you are interested.**

**Please leave your contact details if you want to be kept informed of future events.**

**Wear comfortable clothing, and bring some bottled water with you.**

**MOST IMPORTANT BE JOYFUL.**
